Kata Pengantar

Ikatan Peminatan Kesehatan Gigi Masyarakat Indonesia (IPKESGIMI) adalah ikatan peminatan di bawah pembinaan PB PDGI yang ditujukan sebagai forum tenaga profesional kedokteran gigi yang memiliki minat khusus di bidang kesehatan gigi masyarakat dan pencegahan berbasis komunitas. Tingginya masalah kesehatan gigi dan mulut di Indonesia saat ini menuntut peran organisasi untuk terus menghasilkan pemikiran seperti mempromosikan/mengedukasi pentingnya perawatan kesehatan mulut yang efektif serta membuat strategi dalam rangka meningkatkan status kesehatan gigi dan mulut di Indonesia.

Dalam rangka mewujudkan visi Indonesia Bebas Karies 2030, saat ini dibutuhkan program-program inovatif yang dapat membantu penurunan prevalensi penyakit gigi dan mulut terutama karies. Program yang sudah tersedia pun sebagai upaya mengatasi permasalahan gigi dan mulut masyarakat saat ini perlu diadvokasi dan diimplementasi dengan cara-cara yang kreatif. Sehingga penguatan kelembagaan untuk menghasilkan gagasan – gagasan perlu di dukung dengan penerapan translasi riset dan kedokteran gigi berbasis bukti ke dalam pelayanan dan program kesehatan gigi masyarakat, serta para pakar yang ahli dalam bidang ini juga senantiasa melakukan pengembangan, keilmuan kesehatan gigi masyarakat dan pencegahan, sehingga pada akhirnya diharapkan dengan adanya program-program untuk meningkatkan status kesehatan gigi masyarakat Indonesia maka senantiasa membangun kerja sama dengan pihak industri dalam pengembangan inovasi produk, selain itu juga menjajaki kerja sama dengan organisasi Internasional dalam ruang lingkup kesehatan gigi masyarakat dan pencegahan.
